

Minkštumo ženklas

Ilona Skrodenienė
Eržvilko gimnazija
2021-01-21

Valo – valio

Šoko – šokio

Tylu – tyliu

Lapų – lapių

Mina – minia

Žala - žalia

Pagalvokite, kaip
pasikeičia raidės,
esančios prieš
raudonąją i,
tarimas?

Žodžiuose:

ž*i*ogas, bern*i*ukas, šauk*i*au, kvieč*i*u, lauks*i*u, pieš*i*u
rašome *i* raidę, bet jos netariame. Todėl ji
vadinama “netariama *i*” arba “raidė slapukė” arba
„**MINKŠTUMO ŽENKLAS**“

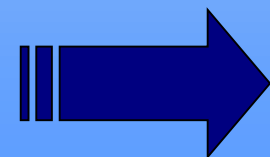

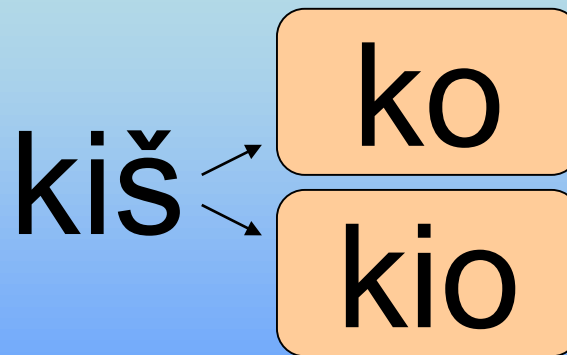

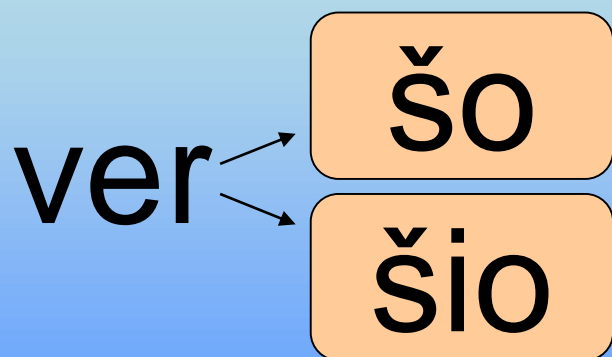

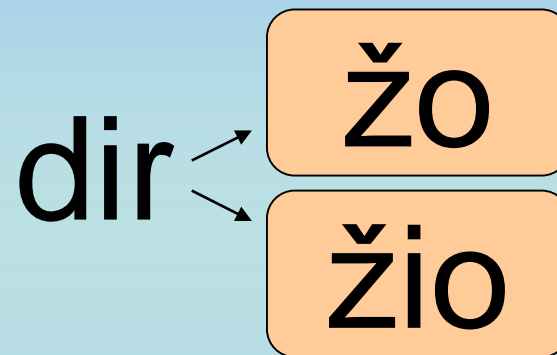

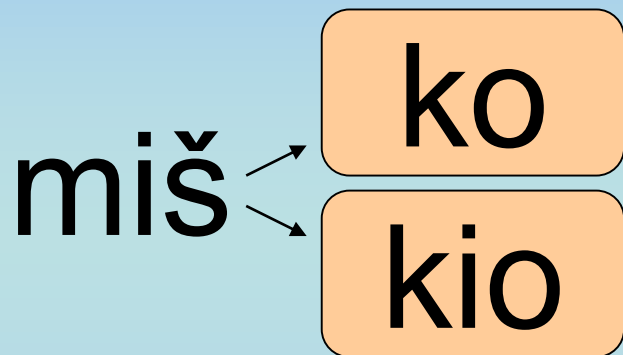

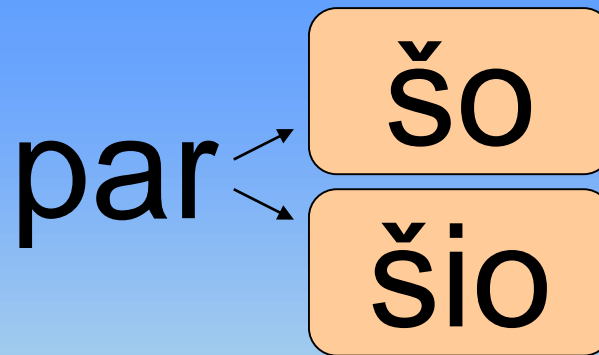

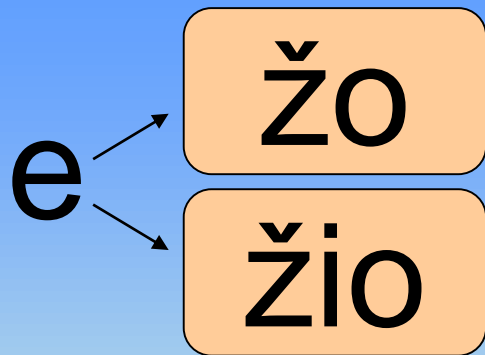

Perskaitykite šiuos žodžius ir
raskite i, kurios netariate:

žaisliukas, važiuoti, žiaurus,
keliauti, rugiagėlė, vaisius,
triušis, šviežias.

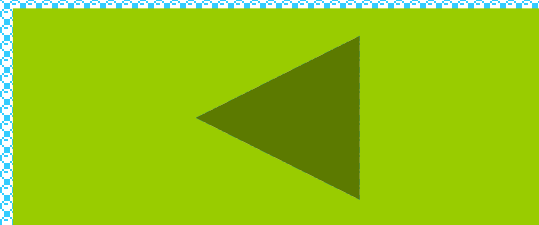

Palyginkite:

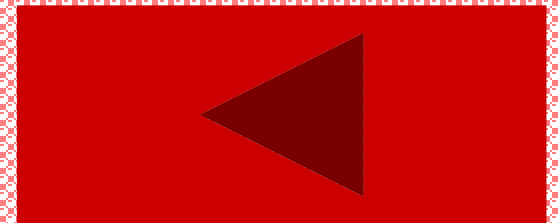

rašau – rašiau,
Jonukas – Joniukas,
mažutis – mažiukas,
avinukas – aviniukas.
